

WS70 Series

Easily Target Customer Samples

The WS70 Series product bundle from X-Rite takes your paint matching services to a new level. It includes a Ci4100 compact sphere countertop spectrophotometer along with ColorDesigner PLUS software, a computer, monitor and label printer for a more robust paint color production process. It makes your paint department a color design center, and gives your staff more time to focus on selling complementary accessories.

Key Benefits

All WS70 Series packages feature the Ci4100 developed for improved speed and accuracy of paint formulation with superior measurement performance that results in reduced mis-tints, errors and rework. Multiple packages are available to meet any paint counter need.

- The WS70 series product bundle from X-Rite is designed expressly for point of sale applications with simplified color searches and matching.
- The rugged design of the Ci4100 sphere spectrophotometer stands up to harsh environments and improves speed and accuracy of color measurement. No loose parts to misplace!
- ColorDesigner PLUS expedites and refines the paint selection process, eliminating wasted and needless formulation errors. It connects to any paint dispenser and makes it easy to mix your customer's color in the paint product they want.
- If samples of the mixed paint need to be measured again, the Ci4100 is perfect for the job since it can measure a variety of samples. Customer paint orders can also be saved for future reference.
- Counter staff can choose additional or complementary colors without re-specifying the initial color for faster, more thorough customer service.

WS70 Series

Featured Products

Ci4100 Spectrophotometer

The Ci4100 is a cost-effective compact sphere benchtop spectrophotometer designed for retail paint associates that are seeking to establish a color control program. A reliable and accurate countertop spectrophotometer that serves as the foundation for operations, the Ci4100 improves speed and accuracy of paint formulation, provides easy sample targeting and stands up to the harsh retail environment.

ColorDesigner PLUS Formulation Software

X-Rite's ColorDesigner PLUS color matching software expedites and refines the paint selection process to eliminate wasted effort and needless formulation errors. It can connect to a paint dispenser system for fast delivery of paint color formulations, mix the customer's color in the paint product they want, and look up colors across paint lines (optional), turning any paint department into a color design center.
