

X-Rite eXact Backup Customer Data Process

1. Connect the eXact instrument to your computer
2. launch the eXact Manager software
3. Click on the button labeled "***Instrument***"

4. With the Summary tab selected, click the button labeled ***Backup***

5. The Windows Save File window will appear, select a location to save the file, and click "Save"

X-Rite eXact Restore Customer Data Process

The process is the same as above, except select Restore file, and navigate to a previously stored file.
