

Remote Training

Color Education

Custom Remote Training

X-Rite Pantone offers remote color training sessions to help you understand the role of color in your industry and manage it throughout production. Each session is an individually tailored online learning experience with the undivided attention of one of our Color Experts. During the session, we will take you through the topics of your choice, from understanding the basics of color through implementing a high-end color workflow so you can receive the maximum return from your color technology. In addition to dynamic interaction and Q&A, you will benefit from state-of-the-art training technologies like live video and remote desktop sharing.

Efficient and Effective

Remote training is an extremely affordable and effective method of learning. Whether your color needs require a one-hour session, a half-day session, or a multi-day series, we are able to tailor the perfect program to help you achieve your color goals.

Contact us for More Information

Contact your local sales representative to answer your questions and help you choose the best service to fit your needs. You can also call 888.439.4403 x216, e-mail learn@xrite.com or visit www.xrite.com/training to learn more.

Tailored to Your Needs

1. An X-Rite Pantone Training Representative will consult with you to identify your needs.
2. You will be paired with the best Color Expert based on your requirements.
3. Your Color Expert will design a custom training session about the topics that matter to you.
4. Session formats may include:
 - Q&A about color management best practices
 - Discussion around industry tips and tricks
 - Hardware and/or software demo to help you align your tools and resources
